organizations which design systems ... are constrained to produce designs which are copies of the communication structures of these organizations

– Melvin Conway

organizations will design software that is a copy of the software they surround themselves with

– Kyle Neath

your team's communication patterns are the best predictor of the quality of the code you produce

– Sarah Mei

if you have four teams working on a compiler, you'll have a four-pass compiler

- Eric Raymond

New Relic.

Thanks Sarah!
