Toyota Production System

@hollyjallen,#QConSF Nov 2018

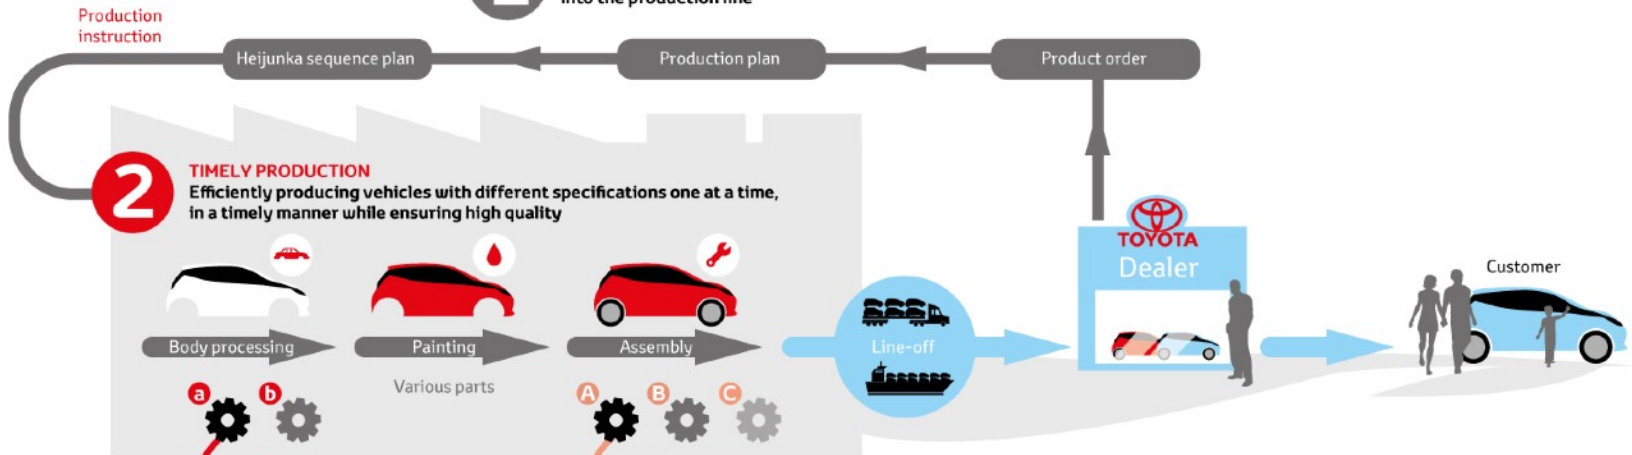

SHIGEO SHINGO

A Study of the
Toyota Production System

Translated by Andrew P. Dillon

1 PRODUCTION ORDER INFORMATION
The order information is quickly incorporated into the production line

2 TIMELY PRODUCTION
Efficiently producing vehicles with different specifications one at a time, in a timely manner while ensuring high quality

3 REPLACEMENT OF PARTS USED
Only those parts that have been used up are retrieved in a timely manner

4 PRODUCTION OF PARTS RETRIEVED
Efficiently producing and replenishing only those parts that have been retrieved

@hollyjallen,#QConSF Nov 2018

Service Discovery

Define best practice

I joined Slack in
February 2018

@hollyjallen, #QConSF Nov 2018

How to empower development teams to improve service reliability?

Define service health and operational maturity

- At least one alerting health metric, like latency or throughput

Send metrics to Prometheus
Observability team is here to help! 🌟

Define service health and operational maturity

- Team should be on-call ready
- At least 4, preferably 6 engineers participating to make it sustainable
- 24/7 or during the weekday, depending on the service

Define service health and operational maturity

- Runbooks for standard actions and troubleshooting
- Central location in our code repository
- Up to date and useable by any engineer

Define service health and operational maturity

- Paging alerts should link to the runbook
- Make responding to an page easy
- Practice incident response

Incident Lunch 🚒

@hollyjallen, #QConSF Nov 2018

Site Reliability Engineers

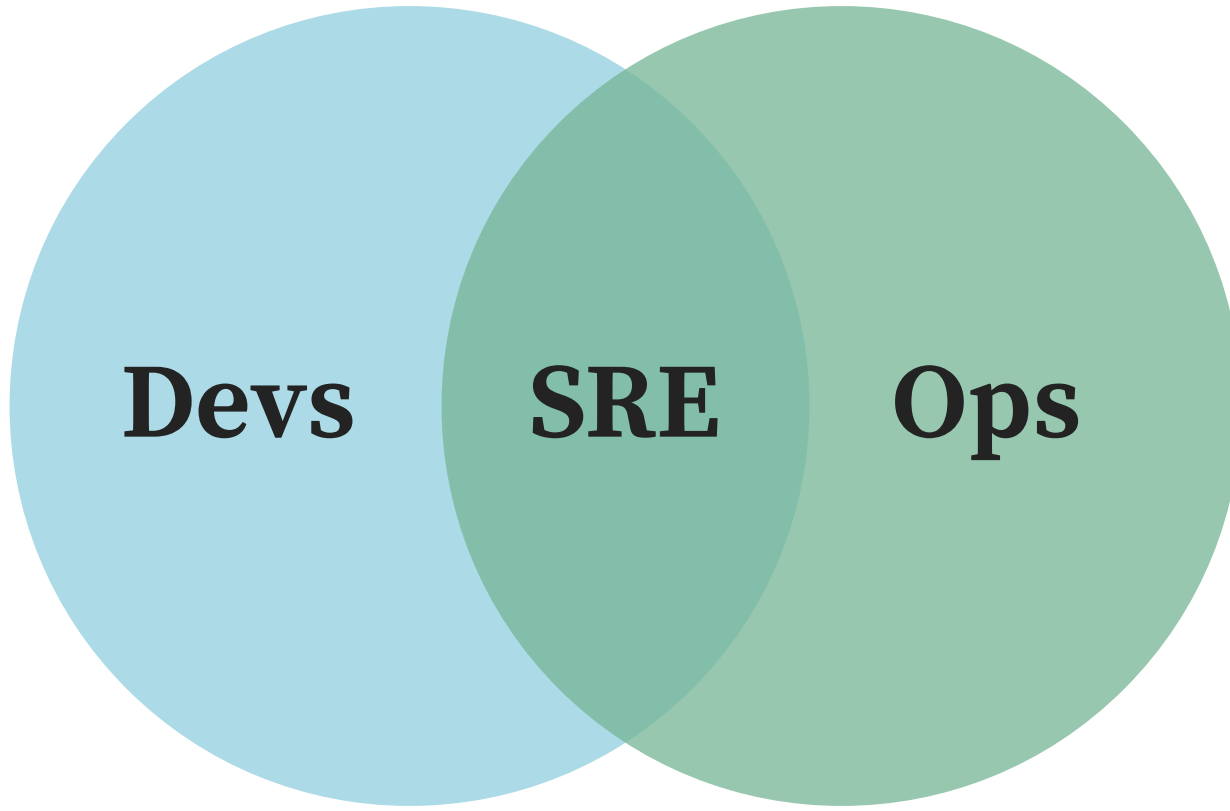

- Devops generalists
- Emotional intelligence
- Mentoring
- Ambassadors
- Operational maturity

SRE embedded in dev teams

@hollyjallen,#QConSF Nov 2018

Devs

Um, where are
the SREs?

SREs

I'm over here
doing
operational
tasks

SRE Ops is still getting the first pages

How do we lower operational burden on the SREs?

Plan: Send paging alerts to the
development teams

Devs

**We need
training**

SREs

**We're going to
plan this out
perfectly**

@hollyjallen,#QConSF Nov 2018

Host level alerts
Hundreds of them

Test with the users

@hollyjallen,#QConSF Nov 2018

@hollyjallen,#QConSF Nov 2018

Everything
was fine!

Empowered Continuous Improvement

@hollyjallen,#QConSF Nov 2018

How do we test our understanding of how Slack will fail?

"Disasterpiece Theater is an ongoing series of exercises in which we will purposely cause a part of Slack to fail."

Design

Measure

Learn

Success Metrics

- Increased engineer confidence
- Validate reliability improvements
- Learn something new
- Practice incident response

~~Centralized Operations~~ Service Ownership

@hollyjallen,#QConSF Nov 2018

How do we ensure the teams are being alerted, instead of skillsets?

How do we make postmortems a place for
learning again?

How do we make sure a capable incident commander is available for all incidents?
